REMARKS/ARGUMENTS

In response to the restriction requirement dated January 26, 2007, Applicant hereby elects species b) directed to a master having an inverted elastomeric member. This election is made without traverse, but without prejudice to file a divisional application having the non-elected claims.

Applicant notes that claims 1-4 and 15-22 are generic. Applicant therefore believes that claims 1-4 and 15-22 read on the elected species. In addition, it is evident that claims 32-40 read on the elected species.

Respectfully submitted,
